

A: Everyday Car Rentals. Lucy speaking. How can I help you?

B: Hi there. Our car \_\_\_\_\_ today, and we have travel plans this weekend.

A: We can certainly help you out with that. What type of seating \_\_\_\_\_ are you looking for?

B: Well, we're a family of four. We don't need a \_\_\_\_\_ vehicle—just something comfortable from your \_\_\_\_\_ class.

A: Okay, so we could either set you up with an SUV or a five-seater \_\_\_\_\_.

B: Sure. What's the price difference?

A: That \_\_\_\_\_ on a few things. How long will you need the vehicle for?

B: I guess it will be three days. I'd pick it up on Friday morning and return it Monday morning.

A: Great. And how many \_\_\_\_\_ will there be?

B: There will be two drivers. Is that an extra \_\_\_\_\_?

A: Yes, it's \$12 per day for each \_\_\_\_\_ driver.

B: My wife will probably only drive on the way home. Can we only pay extra for one day?

A: No, I'm afraid that's not our policy. The sedan would be \$45 per day and the SUV would be \$55. Then you would add \$12 each day for the extra driver. Also, do you plan on crossing the \_\_\_\_\_?

B: No, we'll be staying in the country. I think we'll probably go with the \_\_\_\_\_.

A: Okay, so you're looking at \$201 plus fuel and tax. There's also a \$250 \_\_\_\_\_.

B: All right. Thanks for the information. I'm going to do a bit of \_\_\_\_\_ shopping.

A: Of course. We hope to hear back from you soon.
