1. Why do a lot of letters come to the Italian city on Valentine's Day?
2. Why is it important to see the right bird on Valentine's Day?
3. What message can be sent with the flowers?
4. Why do some people give St Valentine's presents to their pets?
5. What is a different way to celebrate February 14?
6. How did the holiday get its name?
7. Why did a traditional St Valentine's box of sweets have the form of a heart?

A. Chocolate is the most common present on St. Valentine's Day. The tradition goes back to the 1800s when doctors made patients eat chocolate to make them feel happier. This might also be the reason why in the 1860s, Richard Cadbury produced his heart-shaped box of chocolates exclusively for Valentine's Day.

B. St Valentine's Day is a perfect occasion to express your deepest feelings to the person you love. On Valentine's Day lovers, friends and family members exchange Valentine's Day gifts as symbols of love. However, statistics show that nearly 9 million people prefer celebrating Valentine's Day with their pets and give them presents. The reason is that most pet owners consider animals to be more grateful and loyal than humans.

C. Each rose sent on Valentine's Day has some meaning. For example, a red rose means love and respect and pink says, 'I am having sweet thoughts about you'. Also, it is believed that one rose stands for love at first sight, eleven flowers mean that the receiver is truly and deeply loved and a hundred and eight roses are recommended for marriage proposals.

D. Some superstitions about seeing birds on Valentine's Day are really funny. It was once believed that if a woman saw a flying robin, she would get married to a sailor. However, if she saw a sparrow, her future husband would be poor. If she saw a goldfinch, she would marry a millionaire. There is no answer to who she would marry if she saw a pigeon, as history does not say anything about pigeons.

E. Romeo and Juliet, the two characters from the play by William Shakespeare, are remembered all over the world as an emblem of romance. The young lovers lived in Verona, Italy. Every Valentine's Day, this city still receives about 1,000 letters addressed to Juliet. The fictional character is still alive for many people who believe in romantic and immortal love.

LIVEWORKSHEETS

F. Started by a group of feminists, Quirkyalone Day is celebrated on February 14 as an alternative to Valentine's Day. The new holiday started in 2003 as a celebration of romance, freedom and individuality. It's a day to celebrate the things you enjoy doing alone. Ways to celebrate include: buying yourself a new dress, taking a long walk without your mobile phone, exploring a new part of town, trying a new recipe etc.

Cambridge University

Cambridge University is the second-oldest university in the English-speaking world (after the University of Oxford) and the seventh-oldest in the world.

The history of Cambridge University began in 1209 when several hundred students arrived in the little town of Cambridge after having walked 60 miles from Oxford. These students were all churchmen and had been studying in Oxford at that city's well-known schools. Life at Oxford was hard for there was constant trouble, even fighting, between the citizens of the town and the students. Then one day a student accidentally killed a man of the town. The Mayor arrested three other students who were innocent and they were put to death. In protest, many students left Oxford, some of them went to Cambridge. And so the new University began.

It was Cambridge University. Of course, there were no Colleges in those early days and student life was very different from what it is now. The students were of all ages and came from anywhere and everywhere. Life in College was strict. The students were forbidden to play games, to sing (except sacred music), to hunt or fish or even to dance. Books were very rare and all the lessons were in the Latin language which students were supposed to speak even among themselves.

In 1440 King Henry VI founded King's College, and other colleges followed.

Nowadays there are more than 30 different colleges, including five for women students and several mixed colleges, in the University. The number of students in colleges is different: from 30 to 400 or 500.

The training course lasts 4 years. The academic year is divided into 3 terms. The students study natural and technical sciences, law, history, languages, geography, medicine, economics, agriculture, music and many other subjects. After 3 years of study a student may proceed to a Bachelor's degree, and later to the degrees of Master and Doctor.

LIVEWORKSHEETS

There are many ancient traditions that are still observed at Cambridge. For example, the students are required to wear gowns at lectures, in the University library, in the street in the evening, for dinners in the colleges and for official visits.
All the students must pay for their education – classes, examinations, books, laboratories, university hostel, the use of libraries. The cost is high. It depends on college and university speciality. Very few students get grants.
Many great men studied at Cambridge, for example, Bacon (the philosopher), Milton and Byron (the poets), Cromwell (the soldier), Newton (the outstanding physicist), Darwin (who is famous for his theory of evolution) and Kapitsa (the famous Russian physicist).
