Thought I was falling into a .....depression

Thinking all the mystery ..... all gone

Like I was falling into the ..... of a grand canyon

From the side of a ..... I was hanging on

But now I'm coming up for air

I ..... my angel on the sand

She's running out to ..... me

In the waves of the of the Rio Grande

And it's joy, honey, pure joy uh huh

Pure joy just to see you .....

Thought my ..... was in a rut of recession

All the colors I had seen had faded into the black

Like I was falling ..... to the bottom of the ocean

And just my luck my ..... were all chained up behind my back

But now I'm coming up for air

To save me again

To see the sun coming .....through the mist

To feel the ..... of oxygen fill up my lungs again

To feel the strength of your ..... against my lips

Ain't no other ..... to say what this feeling is
