

Read the text about the town of Meadowbrook and match the weather to activities children do

In the town of Meadowbrook, the weather changes a lot, and the kids do different things depending on the weather.

Sunny Days:

On sunny days, the sky is clear, and the sun is bright. It is warm outside. Kids play in the park, fly kites, and eat ice cream under the blazing sun.

Hot Summer:

When it is very hot, there might be a heatwave. The sun is strong, and it feels dry and scorching. Kids go to the pool to cool down. They have water balloon fights and eat ice cream to escape the heat.

Warm Spring and Fall:

In spring and fall, the weather is warm but not too hot. Kids like to ride their bikes and play outside. A cool breeze makes it feel nice.

Cloudy Days:

On cloudy or partly cloudy days, the sky is gray. Kids might play inside or go to the library.

Rainy Days:

When it rains, sometimes it is light rain, and other times it is heavy rain. On muggy days, when the air feels wet, it might rain a lot. Kids might splash in puddles or stay inside to watch movies.

Thunderstorms:

During a thunderstorm, the sky gets dark, and there is lightning and thunder. Kids stay inside and play games or draw pictures.

Humid Days:

On humid days, the air feels wet and sticky. Even if it is warm, the air feels heavy. Kids play in the shade or inside where it is cooler.

In Meadowbrook, kids have fun no matter what the weather is like.

Weather		Activity
