He is very kind and Thoughtful. I found on the internet that his blood type is probably A negative. Sometimes he gives his blood to the blood bank so that people who need the same blood type as him will be able to use it.

It is not the only good thing that I like about him. He is very fit and loves to maintain his health by not smoking.

He does not like to drink alcoholic drinks and also there is no tattoo on his body as well. He believes that a tattoo will not be good for the blood that he donates to the blood bank.

Ronaldo is also very generous which makes him a philanthropist. He donates billions of dollars to the poor and underprivileged people across the world.

As a sports celebrity he remains humble Ronaldo treats his fans in a very courteous way. Once, a person in the audience was injured in the face by the football kicked by Ronaldo.

Right after the match, Ronaldo apologized personally and gave him his jersey.
