**Question 19-21: Read the text and choose the correct answers**

Space exploration began in the mid-20th century, driven by the desire to learn more about the universe beyond Earth. The Soviet Union launched the first satellite, Sputnik, into space in 1957. A few years later, in 1961, Yuri Gagarin became the first human to orbit the Earth. These milestones marked the beginning of a new era of discovery.

In 1969, Neil Armstrong made history by becoming the first person to walk on the moon, an achievement that inspired further exploration. Since then, scientists have sent probes to explore distant planets like Mars and spacecraft to study the far reaches of our solar system. These missions have provided valuable insights into the nature of our universe.

**19. What is the main idea of the text?**

- A. The first human spaceflight by Yuri Gagarin

**20. Which planet are scientists trying to explore today?**

- A. Earth
- B. Moon
- C. Mars
- D. Jupiter

**21. Which of the following statements is NOT true according to the text?**

- A. Sputnik was the first satellite launched into space.
- B. Neil Armstrong was the first person to orbit the Earth.
- C. The Soviet Union led the early achievements in space exploration.
- D. Probes have been sent to explore planets like Mars.

**Question 22-24: Read the following text**

One of my favorite books is *Harry Potter and the Philosopher's Stone* by J.K. Rowling. It tells the story of Harry Potter, an orphan raised by his unloving aunt and uncle after his parents were killed. Everything changes when he receives an invitation to Hogwarts School of Witchcraft and Wizardry, where he discovers he is a wizard. At Hogwarts, Harry realizes his uniqueness and embarks on adventures with his friends Ron and Hermione to uncover the mystery of the Philosopher's Stone. I can read this book repeatedly; from start to finish, J.K. Rowling captivates me! There is never a dull moment, whether it's battling trolls, a three-headed dog, or facing Lord Voldemort. I highly recommend this book because it keeps you engaged and reluctant to put it down. By the end, you grow to love the characters and want to continue reading. You won't be disappointed, as the second book, *Harry Potter and the Chamber of Secrets*, is equally fantastic! If you haven't read any of the Harry Potter books, you are missing out on the best series ever!
