HOW TO MAKE CHOCOLATE CUPCAKES

Drag and drop to rearrange the procedure to make chocolate cupcakes.

Top your cupcakes with your favourite frostings, add on some sprinkles and serve. Enjoy!

Place the chocolate cupcakes on a wire rack to cool.

In a separate bowl, whisk coffee mixture, oil, vinegar, and vanilla extract.

In a bowl, whisk flour, cocoa powder, sugar, baking soda and salt.

Bake for 20 minutes or until or until a bamboo skewer comes out clean when inserted.

Fold in the dry ingredients. Mix just until incorporated. Do not over mix.

Preheat the oven at 250°C. Fill the cupcake liners with the batter about two-thirds full.
