### PRACTICE 3

- A. Read the text below and choose the correct word for each blank. For each blank, choose the correct answer A, B or C.

#### The Kangaroo

Kangaroos are animals that can be found in East Australia. They live in small groups called 'herds' (1) \_\_\_\_\_ 'troops'. They have powerful hind legs, a long, strong tail, and small front legs. They usually have soft fur that is grey, brown, or red. Kangaroos get around (2) \_\_\_\_\_ hopping on their hind legs. Some kangaroos can even cover a distance of 9 metres (3) \_\_\_\_\_ one jump. While jumping, kangaroos balance themselves with their long thick tails.

Female kangaroos have a pouch on their belly to (4) \_\_\_\_\_ baby kangaroos called joeys. When the joeys are 7 to 10 months old, they will leave the pouch for good.

Read the text below and answer the questions that follow. For each question, choose the correct answer A, B or C.

## Egg Sandwiches

Hi, everyone. The weather has been sunny lately, which means it's the perfect time to have a picnic. Let me share with you my favourite food for a picnic—egg sandwiches!

It's really easy to make egg sandwiches. All you need are bread, eggs, mayonnaise, butter, salt and black pepper.

Firstly, you should boil the eggs. When the eggs are cooked, peel and mash them. Then, add salt, black pepper and mayonnaise. Spread butter over two slices of bread before adding the egg mixture between them. After that, it's ready to be eaten. Yummy!

I hope you enjoy the recipe. Join me next month for more simple recipes.

### PRACTICE 3

Read the texts about three different opinions on animals. For each question, choose the correct person (A, B or C) that fits the description.

<b>A</b>	<p><b>Luke</b> My favourite animal is the wolf. I think wolves are really cool. They live in groups called 'packs'. A pack is a family of seven to eight wolves. They work together to hunt, raise their young and protect their territory. To communicate with other wolves, they howl, whine, growl, bark, yelp, and snarl. They can even use smells produced by their bodies to communicate.</p>
<b>B</b>	<p><b>Daud</b> I think koalas are cute. They have grey fur but their chest is cream-coloured. They can be found in Australia. They are herbivores and mainly eat eucalyptus leaves. Koalas can eat up to one kilogram of eucalyptus leaves. When koalas are not eating, they spend most of their time sleeping. They can sleep up to 18 hours a day!</p>
<b>C</b>	<p><b>Wei Ming</b> Tapirs are amazing! They have a trunk that they can use to grab branches and pluck tasty fruit. They are also great swimmers and can dive to eat aquatic plants. The biggest tapir can be found in Southeast Asia. They are black and white in colour and they live in the forests and swamps of Malaysia and Sumatra.</p>
