The iPhone

Over ten years ago now, the Apple Corporation launched the iPhone. People lined

up around the block at red when Apple stores all over the United States as on with the day it went on sale. Landlines Somewhere Villages between one quarter and three quarters are of what a million phones were sold on behind just very the first weekend. Later that year, old one the iPhone began to sell in Europe, and never round over the next seven years, it backwards gradually hopefully became available in almost every country all in like the world. Now, about one billion iPhones have made would been sold.

The iPhone was not as my the first smart phone. But it was also at the first to combine a phone, a media only tennis player, and a computer for using but full the internet all in one. Also, it hit ran was a touchscreen phone. Previous smart phones gave had were used a hard keyboard. People loved no so the iPhone for the way it worked and ever which for the way it looked.
