

I can use pictures to add.

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

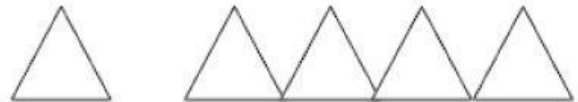

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

I can add in any order.

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

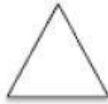

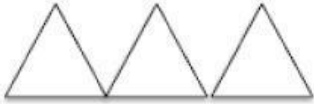

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

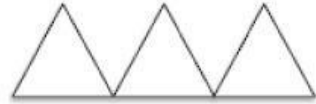

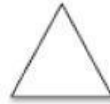

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

I can put numbers together.

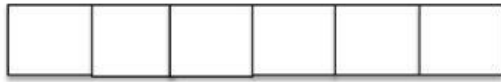

Ways to make 6

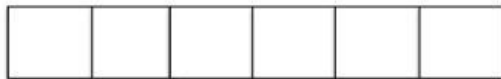

$$6 + 0 = 6$$

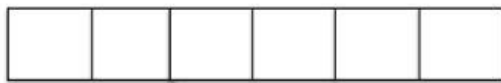

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

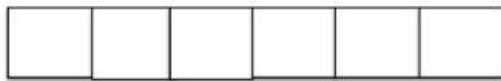

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

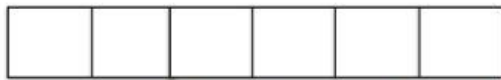

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

Follow the pattern! Color the cubes, write a matching number sentence.
