Hi! My name is Emilia. I'm from Cordoba, Argentina. I'm eleven years old and I'm in 6th grade. I go to San Martin School. I really like it because I have got Art classes. Art is my favourite subject at school. I love painting and drawing. My favourite colour is green. I hate Math because I don't like numbers and mathematical operations. My brother Santiago is good at Math and Geography but I think Geography is difficult because I don't understand maps.
