UNIT 3 LESSON 1 – WORDS AND GRAMMAR

1 Read and circle the correct words. Then match.

- In our homes we have a lot of machines that use packaging electricity, like TVs and a dishwasher.
- The sky in this city is dirty. There is a lot of electricity pollution from the cars.
- I'm going to borrow recycle a book from the library.
- Our food comes in a lot of plastic leftovers packaging. We should recycle it.
- I cooked too much food last night. I've put the leftovers packaging in the fridge.

d

2 Read and complete.

electricity exchange packaging pollution reduce leftovers waste

Let's Help the Environment!

by Maria

I live in a big city. There are a lot of cars, so there's a lot of
 1 pollution. It's bad for the environment, so our family has
 decided to do more things to help the environment. At home, we
 turn off the lights at night, so we can 2 reduce the amount
 of 3 electricity we use. We don't buy food that has a lot of
 plastic 4 packaging. We try to 5 exchange less food, too.
 We put our 6 waste in the fridge and eat them the next
 day. I don't buy many new clothes. Instead, I 7 borrow my
 clothes with my sister. She's the same size as me!
 They are only small things, but everything we do helps!

3 Write the past participles.

- 1 be been 3 buy 5 live 7 make
 2 go 4 put 6 have 8 repair

4 Look and read about Billy. Write T (true) or F (false).

- 1 He's lived in London for 13 years.
 2 He's been friends with Yan since 2018.
 3 He's been to India.
 4 He's never been to France.
 5 He's already put the packaging in the recycling bin.
 6 He hasn't eaten the leftovers yet.

F

5 Look and write sentences about Tanya. Use the sentences in 4 as a model. Use the present perfect.

- 1 live in New York
 2 be friends with Sophia
 3 visit Japan
 4 visit Canada
 5 repair her bike
 6 not recycle the cardboard

She's lived in New York for ten years.
