"Tell us about your plans for future. Explain why these plans are important to you."

Working

When I finish school, I want to start working. I want to find a job that helps me make money and learn new skills. I think working is important because it makes me responsible. I can help my family with money, and I can save for the future. I also want to take some courses to keep learning. Even though I don't go to college, I can still learn through these courses. These plans are important because they help me grow as a person. I want to be independent and take care of myself.
