

"Tell us what food or meal you like to make. Explain how you make it."

Sandwiches

I like to make sandwiches. They are easy and quick to prepare. First, I take two slices of bread. Then, I spread some butter on each slice. Next, I add some cheese. Sometimes, I also put in lettuce and tomato for extra flavor. After that, I put the slices together to make the sandwich. Finally, I cut it in half and enjoy my meal. Sandwiches are my favorite because they are simple to make and taste great.
