The Brave Animals in the Forest

Once upon a time, in a forest, there were many animals living together. The **youngest** animal was a rabbit named Ruby. She was also the **fastest** runner in the whole forest. Her best friend was a tall giraffe named Gerry. Gerry was the **tallest** of all the animals.

One day, the animals decided to have a race. Ruby was excited because she loved to run. The race started at the **highest** mountain and finished at the river. It was a **harder** race than Ruby expected because the mountain was very cold, and the wind was blowing **harder** than usual. Ruby had to be the **bravest** because the path was also very dark, and some animals were scared.

During the race, Ruby saw something strange. A rude tiger was blocking the way for the other animals. Ruby was close, but the tiger was **closer**. Ruby knew she had to run **faster** than before to win the race.

Finally, Ruby ran past the tiger and won the race. The animals cheered for her because she was the **bravest** and **fastest**. After the race, the animals had a party with cheap snacks, and Ruby was the **happiest** of all.

Read the story and answer True or False:

1. Ruby was the youngest and fastest animal in the forest.	**TRUE**	**FALSE**
The race was easier than Ruby expected.	**TRUE**	**FALSE**
Gerry, the giraffe, was the shortest animal.	**TRUE**	**FALSE**
The race started at the highest mountain.	**TRUE**	**FALSE**
Ruby won the race by running past the tiger.	**TRUE**	**FALSE**

Multiple-Choice Questions

1. What was the race like?

a) It was harder than Ruby expected. b) It was easier than Ruby expected. c) It was shorter than Ruby expected.

2. Why did Ruby need to be brave?

a) The weather was hot. b) The path was dark and some animals were scared. c) The snacks were cheap.

3. Who blocked the way during the race?

a) A rude rabbit. b) A rude tiger. c) A strange giraffe.

4. What did the animals do after the race?

a) They went home. b) They had a party with cheap snacks. c) They climbed the mountain again.
