How to Install a Light Switch

Materials:

- Light switch
- Screwdriver
- Wire stripper
- Electrical tape

Steps:

1. Turn off the power at the circuit breaker for safety.
2. Remove the old light switch using a screwdriver.
3. Strip the wires about 1 cm at the ends with the wire stripper.
4. Connect the wires to the new switch (black to black, white to white).
5. Wrap electrical tape around the screws and install the switch back in the wall.

How to Replace a Fuse in a Fuse Box

Materials:

- Replacement fuse
- Screwdriver
- Voltage tester
- Insulating gloves

Steps:

1. Turn off the main power at the fuse box.
2. Use the voltage tester to check if the fuse is dead.
3. Remove the damaged fuse by loosening it with a screwdriver.
4. Install the new fuse by aligning it in the correct slot.
5. Turn on the main power and check if the new fuse works
