| 10) Resuscitation | j) Voluntades anticipadas |

1	2	3	4	5	6	7	8	9	10

2. Listening

Listen to the following conversation and complete it using the vocabulary above.

Nurse 1: How is Mr. Johnson doing today?

Nurse 2: Unfortunately, his condition has worsened. He's now receiving _____.

Nurse 1: I see. Does he have a _____ order?

Nurse 2: Yes, his family signed the _____ as part of his _____ last week.

Nurse 1: That's good to know. Are we focusing on _____ now?

Nurse 2: Yes, we're keeping him comfortable. His pain is being managed well,
and the family has decided to move him to a _____.

Nurse 1: It's always hard when someone has a _____ like this.

Nurse 2: Absolutely. We also had a discussion with the family about _____,
but they were relieved that Mr. Johnson didn't reach that point.

Nurse 1: And no one has mentioned _____, right?

Nurse 2: No, the family hasn't brought it up. They're just focusing on making sure he's comfortable.

Nurse 1: That's good. We've seen many cases where patients with _____
were brought back with _____, but it seems the family is at peace with the situation.

Nurse 2: Yes, they are. They're prepared for what's coming.

3. Vocabulary comprehension

- 1) **What type of care is Mr. Johnson currently receiving?** _____
