| 31. Edward Murphy was an architect.                               | A. correct | B. incorrect |
| 32. Edward Murphy was Canadian.                                   | A. correct | B. incorrect |
| 33. He worked for American Air Force in the 1960s.                | A. correct | B. incorrect |
| 34. He was responsible for building complicated machines.         | A. correct | B. incorrect |
| 35. Today we use this expression to describe an unlucky situation | A. correct | B. incorrect |

### WHERE DID MURPHY'S LAW COME FROM?

Have you ever heard from Murphy's Law? Murphy's Law is a humorous law that says. "If something can go wrong, it probably will". For example, imagine you are waiting in line at the supermarket. Your line is going very

slowly, so you decide to move to another line. Suddenly the line we were in before starts moving quickly. And the line you are in now starts moving very slowly. Or imagine you decide to wash your car. You go to the car wash. But on the way home, it begins to rain. These are example of Murphy's Law. But where does the name come from?

Murphy's Law is named after an American engineer. Captain Edward Murphy. He was an engineer in the American Air Force in the 1940s. As a project manager, he was responsible for building very complicated machines. Many times, these machines did not work. Captain Murphy got frustrated and said "If anything can go wrong with this project, it probably will". His team members liked this expression in the United States and around the world. Today we use this expression to describe an unlucky situation. It is funny how a common expression such as Murphy's Law started a long time ago with just one person. He got frustrated when things didn't work, just like we do today.

## PART 9

### QUESTIONS 46-50

Read the text below and choose the correct word for each space.

### Older People Are Happier

How old are you? Are you in your twenties or thirties? If your answer is 'yes', then you probably feel stressed and maybe a (0)..... depressed about many things in your life. However, researchers studying happiness found out something quite interesting. The researchers recently interviewed 1,546 people between the ages of twenty and one hundred. They learned that older people are (46)..... happier than younger people. This information surprised the researchers because older people have (47)..... health problems. The researchers are now asking themselves, "Why are older people happier with their lives?" There is no one, clear answer to this question. The answer may be, however, that older people have learned how to think differently. For example, a younger person might see a problem as a (48)..... big and very serious one. A person who is fifty or sixty, however, might view that same problem as a small problem. As Professor Jeste, at the University of California, says, "a lot (49)..... big things become little" for older people. So, if you are young and a (50)..... unhappy now, don't worry. You will probably feel happier when you are older.
