REVIEW:

Bottom of Form Best Height View

This place located in a hill that has beautiful scenery in evening or night. They have a lot of photo spots, but you must pay extra fee to take photo. The best time to visit *HeHa Sky View* is in the evening or night. It will be hot during the day. Do not forget to make reservations because this place can be very crowded during holidays or weekend.

The condition of this place is clean, tidy and comfortable. Toilet and bathroom, food court area, mosque, cafeteria, playground, live music and parking area are provided already. The foods are so good although it is expensive. I love their coffee. I am little disappointed with the services. The waiters took long time to serve the food. Overall, I recommend this place if you visit Yogyakarta.

1. What will people probably do after reading the text? They will . . .

   A. calculate the cost needed to go to HeHa.

   B. save the number to make reservation

   C. visit the place during the weekdays.

   D. know location of the HeHa.

2. What is the main idea of the last paragraph?

   A. The complete facilities of HeHa.

   B. The best time visit HeHa.

   C. The clean toilet in HeHa.

   D. The services of HeHa.

3. The reviewer suggests visiting “HeHa Sky View” because. . .

   A. The area is very dangerous.

   B. The foods are delicious.

   C. The condition is quiet.

   D. The foods are pricey.

LIVEWORKSHEETS

C **Calysta.** ★★☆☆☆

My family and I had dinner at Rosso Vino restaurant Singapore with my uncle and aunt as I had enjoyed my previous visits there. Unfortunately, this time the service was a big let-down.
From taking orders to when and how to serve the starters, appetisers, mains, dessert and drinks. I will not go into details but just to say it was disappointing. The saving grace was the food which, while not exceptional, was all generally. With outdoor seating available, having dinner by the riverside during sunset was also a very pleasant experience. However, the owners should enhance by improving the quality of their waiting staff.

4. From the text we know that ….

I	The writer and his family have ever visited the restaurant.
II	The writer is always satisfied with the restaurant's service.
III	The writer complains the waiting staff of the restaurant.
IV	The writer asked the restaurant's staff to improve their quality.

The correct answers are ….

A. I and II
B. I and III
C. II and III
D. II and IV

5. What is the writer's main criticism?

A. The atmosphere of the restaurant.
B. The menu provided in the restaurant.
C. The outdoor seating of the restaurant.
D. The way staff serves the visitors of the restaurant.

6. Who will be likely interested in reading the text above?

A. The restaurant chef.
B. The visitors of all restaurants.
C. All tourists who visit Singapore.
D. People who will visit the restaurant.

LIVEWORKSHEETS

Rainbow is a natural phenomenon in the form of arc spectrum in the sky. It is caused by the refraction of light through water droplets in the air. Rainbow appears after the rains. The colours are red, orange, yellow, green, blue, indigo, and violet.

Rainbow is in the form like an arc. However, it actually has a circle shape. The half of the circle can be seen and the other half can only be seen when we see from the higher places such as a mountain or when we are on a plane.

The colours are formed as the effect of the refraction and reflection of the sunlight. After raining, the sunlight touches the raindrops and it is reflected. The sunlight, which is the white light, will be separated in different degrees and produces different wavelengths. These wavelengths are accepted by our eyes in the form of different colours or spectrum, and we call it as a rainbow. As its position is opposite the sun, we need to turn our backs to the sun to see it. The lower the sun is to the horizon, the higher the arc of the rainbow will be.

7. By reading the text we ....
   A. get knowledge about rain
   B. are able to draw a rainbow
   C. get description about rainbow in general
   D. are able to describe the beauty of a rainbow

8. Which statements are correct based on the text?
   (1) People on a plane will see a rainbow in the form of a full circle.
   (2) People can find a rainbow at the same direction as the sun.
   (3) A rainbow consists of more than six colours.
   (4) A rainbow appears before the rain.

   A. (1) and (2).
   B. (1) and (3).
   C. (2) and (3).
   D. (2) and (4).

9. "Rainbow is in the form like an arc."
   The word "arc" in that sentence is similar in meaning with ....
   A. bow
   B. loop
   C. circle
   D. spiral
