jellybean_21 says: ★★★★★
Some films in the science fiction genre are very unrealistic but I thought Arrival seemed very real – very human. Often with this kind of film you can't relate to the characters but Arrival was completely different. Plus, I had no idea how it was going to finish! Wonderful.

comedyfan246 says: ★★★☆☆
I enjoyed Arrival, but I think every film should have funny moments and there was nothing to laugh at in this one. I also didn't like the main character very much – the one that took on the job of talking with the aliens – even though she was played by an A-list actor. So, not a great film, but it's OK.

LaraNYC says: ★★★★☆
I knew from the very beginning that the professor would give up her job (and possibly her life) to help the military, but the rest of the film was not so easy to predict. During the film I felt scared, excited, happy and sad and I didn't expect to feel those different emotions. A very entertaining and engaging film – not a blockbuster movie but I enjoyed it!

debsterHK says: ★★☆☆☆
I watched the trailer, so I was expecting something special. Unfortunately, Arrival is the same as all other sci-fi films I've seen – I thought it was very predictable and unoriginal – in other words, nothing new. For example, there is always the bad military character who is standing up for the humans and too many computer generated images in every scene. Boring. You also really need to dedicate yourself to watching this film because it's very slow and too long.

ianbSMC says: ★★★★★
Normally I enjoy relaxing films, and I often fall asleep before the end! Arrival was not this kind of film. It took me to another world for two hours. A very unusual film and a very good one. Well worth the price at the box office. When does Arrival 2 come out?

HOLIDAY REVIEW

Destination: Brecon Outdoor Centre, Wales

Review by: Joe Queen, Norwich

We went by coach to Wales. We had a lot of fun on the way but the trip took five hours and it was too hot. I was glad when we arrived at the campsite.

GETTING THERE ●●●●○

It wasn't easy to put up the tents but they were big, so there was plenty of space for our backpacks and boots. Unfortunately, there were no beds, so we had to put our sleeping bags on the ground.

ACCOMMODATION ●●●○○

We went kayaking on the river, windsurfing on a lake, mountain biking and hiking in the mountains. We were always doing something. It was brilliant!

ACTIVITIES ●●●●●

A great school trip, especially the activities. I really recommend it. I was sorry to leave.

YOUR VERDICT ●●●●○

To: Marek

Subject: I'm back!

Hi Marek,

I've just come back from the school trip to the Brecon Outdoor centre in Wales. It was fab!

But let me start from the beginning. We arrived at the campsite after a [1]_____ trip by coach. The first thing we had to do was to put up the tents. It wasn't easy, I tell you. They were quite spacious though and there was enough room not only for our sleeping bags but also for our [2]_____.

Brecon is a fantastic place with [3]_____ and some mountain ranges within easy reach. Every day we could do something different – and we did! We tried [4]_____. We also did some mountain biking and hiking. It was tough!

What a pity our trip was so short. It was really super. I have already written a review for our school magazine – [5]_____ this place to everyone who likes to be active!

So, if you ever go to Wales…☺

I've got to go now but I hope to hear from you soon.

Keep in touch!

Joe

THE INCREDIBLE SHRINKING OF A CHOCOLATE BAR

Do you love chocolate?

If you do, then you know that chocolate bars aren't as big as they used to be.

In 2013 the average chocolate bar weighed fifty-five grams, in 2016 it was only forty-nine grams.

Chocolate bars are getting smaller and lighter than before. They aren't worse than they used to be but they aren't better either. And they certainly aren't cheaper. So why is it happening?

Here are the most important reasons:

- **COCOA:** In 2015–16 West Africa had some of its worst weather in recent years. Cocoa production fell, so now chocolate is more expensive than before.
- **HEALTH:** Many people today want to be fitter and healthier. Larger chocolate bars have more calories so they are becoming less popular than smaller bars.
- And the last but not least important reason – **MONEY:** Smaller bars at the same price mean bigger profits from sales.

The situation isn't good enough! It's certainly not the best news for chocoholics like me!

Let's hope our favourite snack doesn't become too expensive in the future!

Anna: Zauważyłeś, że batony czekoladowe są [1]_____?

Me: Dokładnie! Ale wcale nie są przez to tańsze! Dobrze, że chociaż ich [2]_____ się nie zmieniła.

Anna: Podobno uprawy kakao w Afryce Zachodniej mocno ucierpiały z powodu [3]_____ pogody i w rezultacie [4]_____ produkcja kakao. A jak czegoś jest mniej, to staje się droższe.

Me: A może to dlatego, że czekolada jest kaloryczna, a ludzie chcą być sprawniejsi i zdrowsi, więc chętniej sięgają po mniejsze batony niż po większe?

Anna: No tak, a poza tym jak batony mniejsze niż kiedyś sprzedaje się [5]_____, to osiąga się większe zyski.

Me: Żeby tylko w przyszłości było nas jeszcze stać na czekoladę!
