

Making bread

One sunny morning, Lily decided to bake bread for the first time. She loved the smell of fresh bread, so she wanted to try making it herself.

Lily put all the ingredients together: flour, water, yeast and a bit of salt. She measured the flour carefully and put it into a big bowl. Then, she put a pinch of salt. Next, she mixed warm water with the yeast..

After that she started mixing everything with her hands. The dough felt sticky at first, but Lily kept kneading it on the table until it was soft.

After kneading, she put the dough back into the bowl, covering it with a towel. After one hour, the dough was ready. The dough was really big! Then, she put the dough in the hot oven.

The house had a wonderful smell of baking bread. After 30 minutes, Lily took the bread out of the oven. It was golden brown and smelled delicious.

She let it cool for 10 minutes. The bread was soft inside and crunchy outside. It was warm and perfect.

Lily smiled. She was really happy! Making bread was very easy. She decided that she would make bread every day.

- Who decided to make bread?
 - a) Lily
 - b) Lily's father
 - c) Lily's mother

- Did Lily make the bread?
 - a) Yes, she did
 - b) No, she didn't
