How To grow Carrots

STEPS

Carrot seeds

sun

garden patch

soil

shade

shovel

water

rake

GOAL

Firstly, turn the dirt over with shovel until all the dirt looks loose.

rake down the dirt until is all level.

poke holes with your fingers 10cm apart and 1 cm deep in neat rows.

put four carrot seeds in every hole, so u hav emore chances of more corrots.

after that cover your seeds with the left over dirt until u cannot see them.

you must water your seeds very well after they get planted with a watering can or hose.

finally wait around 15 to 18 weeks for them to grow. then you can enjoy the yummy carrots
