Get up later, be a better student!

Doctors tested two groups of teenagers.
Group A starts college at 8:00 a.m.
and Group B starts 30 minutes later.

The doctors' conclusion is:

Group A: They get worse exam results,
they think studying is more boring,
they are more unhealthy.

Group B: They are happier than the other group,
they get better results,
they are healthier.

So 30 minutes more sleeping makes better students!
