Toy Story ★★★★☆

One of my favorite movies ever

Author: AnimationFanMateo

I didn't use to like animated movies. But after I saw *Toy Story*, I became a fan. It's one of my favorite movies ever. The story is interesting from beginning to end. If you haven't seen it, it's about toys that come alive when they're alone. Six-year-old Andy's favorite toy is Woody, a cowboy. Woody is also the leader of the other toys. But then a cool, new toy arrives – a space action figure named Buzz Lightyear. He has a lot of fancy features, and Andy is fascinated. Woody hates Buzz and tries to get rid of him, but after some adventures together, the two toys become friends.

Toy Story is dramatic as a movie with real actors, and Woody and Buzz have the same feelings as ordinary people. Their voices are perfect, especially Tom Hanks as the voice of Woody. The story has a lot of jokes for adults, so it's fun for the whole family. My only complaint is that the animation looks a little old now. Animation technology has improved a lot since 1995. But it will always be a great movie!
