subject: My New School!

Hi James,

I hope you're doing ! I just wanted tell you about my new school. It's been a big change, but so far, I'm really enjoying it. The first day was a bit , but I quickly some friends, which made me better.

The classes are quite , and we to complete a lot of homework, but the teachers are really nice. of my favourite subjects is English, because the teacher makes it really fun and . However, I still find a bit hard, especially when we have to do mental calculations.

Another great thing is that the school offers a lot of activities like sports, music, and even drama. I've for football, and I'm really excited about it.

The only downside is that the school are pretty strict, so we can't our phones during the day. But overall, I'm enjoying the experience and learning a lot!

How are things with you? Do you have any news to share? Write back soon!

Take ,

Sara
