Indonesia is a big country. It is between two continents, Asia and Australia, and between two oceans, the Pacific ocean and the Indian Ocean. It is the largest archipelago in the world. There are more than seventeen thousand islands in Indonesia.

We have a lot of islands. The big ones are Papua, Kalimantan, Sumatera, Sulawesi, and Java. Of the five islands, Java is the smallest, but it is the most populated one. We can find people from around Indonesia in Java.

Indonesia is on the equator. It is a tropical country. The sun shines brightly everyday, so it is mostly hot. It has two seasons, the rainy season, and the dry season.

There are many seas in Indonesia, the Java Sea, the Bali Sea, the Arafuru Sea, the Banda Sea, the Timor Sea, and many others. We also have many straits, like the Sunda Strait, between Java and Sumatra, the Lombok Strait between Bali and Lombok, and many others.

Indonesia also has many mountains. Many of them are still active and can erupt any time. We call them volcanoes, like Sinabung and Merapi in Sumatra, Merapi in Java, dan Lokon in South Sulawesi. When they erupt they bring out very hot lava from inside the earth.
