#### Reading Passage:

I live in a small village with my family. Every day, I go to school by bus. My school is near the river. Some schools here are on boats! These schools are special because they can move on the water. They help children who live far away from regular schools.

The boat schools have everything: teachers, books, and even computers. The boat goes to a village, and students get on. After school is done, the boat takes the children home. It's a great idea for kids who live near rivers.

Sometimes, when it rains a lot, some areas in my village get too much water. This makes it hard for people to go to school. But the boat schools still go, even when it's raining. The boat schools are very helpful when the weather is bad.
