3. Look at the picture and complete the sentence.

Many children have taught their own parents about _____.

recycling laws smog

4. Put the words into the correct order.

Ian feels really annoyed when _____
_____.

people street throw litter the on

Activity

5. Put the items in the order that you hear them mentioned.

I want to protect the environment that I live in, an environment that will be affected by climate change. If the temperature goes up, the ice at the North and South Poles will change from ice to water. This could cause huge problems with water covering areas that are usually dry. What's more, we could also see animals that live at the Poles, not existing any more. We need new rules to limit how much pollution can be produced by each country around the world, and we need them now.

Future certainty

Future possibility

won't

will

may not

might not

8. Choose the correct option.

Sorry, darling, I'm not sure if Grandad is coming tonight. There

be a lot of traffic on the road.

may

will

may not

9. Complete the information.

Hi Tara,

This is just a note to tell you that I definitely come to your party – that's for sure! However, I arrive a little late, because I have to buy a couple of things on the way. I call you if I have run out of battery, but I leave you without news, in any case.

See you soon!

may not

won't

may

10. Listen and choose the correct answer.

Something simple that everyone could do to help save the environment using energy saving light bulbs. Mexico has given almost 23 million of them to families for free. Now, more than 5.5 million Mexican families use energy saving light bulbs. If they use energy saving light bulbs, they may save up to 18 per cent on their electricity bill. This is a simple thing that YOU can do, too. You will use a tenth of the electricity if you use energy saving light bulbs at home.

00:42

☐ Almost one fifth of those people are using them.

☐ They will definitely save almost 20% on their electricity bill.

☐ There are 25 million families who haven't paid for energy saving light bulbs.
