## *Reading 2.4* *(5 marks)*

*Read the text. Are the statements **True** or **False**? For each item, shade in the bubble ⬭ under the correct option.*

*In a small town, a curious boy named Jake loved looking at the night sky. He often wondered about the Sun, Moon, and the stars. One night, he borrowed a telescope from the library to explore the solar system.*

*"How far is the nearest planet?" he asked his sister Mia. She replied, "It's about a hundred million miles away!" They dreamt of traveling in a rocket to see a comet up close and visit the space station.*

*Jake imagined wearing a spacesuit and floating among the stars. "Will we really go to space one day?" he asked. Mia smiled, "We won't know until we try!"*

*They counted the stars together, thinking about how many there could be—five thousand, ten thousand, or even a million! Each night, their dreams of space grew bigger.*

| ***Statements*** | ***True*** ✓ | ***False*** × |
|---|---|---|
| ***1)*** *Jake likes to look at the night sky.* | ⬭ | ⬭ |
| ***2)*** *Mia thinks the nearest planet is a hundred miles away.* | ⬭ | ⬭ |
| ***3)*** *They use a telescope to see the solar system.* | ⬭ | ⬭ |
| ***4)*** *Jake dreams of going to space in a car.* | ⬭ | ⬭ |
| ***5)*** *They count stars and think there could be a million.* | ⬭ | ⬭ |
