A Read Nathan's description of a perfect day and holiday.

Hi, I'm Nathan. In 2010, I visited South Africa with my family. My mum and dad lived there many years before I was born and they wanted to go back to see friends. It was my first visit and I was very excited. We visited the city of Cape Town and Sun City waterpark with its amazing waterslides. We drove along the coast to a place called l'Algulhas, which has a typical red and white lighthouse. It is also the place where the Pacific and the Indian Ocean meet. Sometimes you can see sharks here but we didn't this time.

I loved all these places but Moholoholo Wildlife Rehabilitation Centre was my favourite place.

It's a centre that takes care of animals that are endangered, abandoned, hurt or poisoned. When the animals are better they go back into the wild but some animals have many problems and stay at the centre.

I saw a honey badger for the first time. It's a mammal that looks very scary but it is very clever. It climbed up the gate and opened it with its claws!

But the day was special because I walked with an eagle on my arm and felt a leopard's soft fur. I met a baby rhinoceros that was as cute as a kitten and I learned how important it is to look after our wildlife. It was a perfect day and a perfect holiday.
