A Memorable Day : A Trip to Sabah

In 2015, I had the best trip of my life. It was a trip I can never forget. It was during my mid-year school break. This trip made me so happy because I went to states I have not been to before. On the trip, I met new people and went to new places and saw new things. I never expected the trip to be so nice, but it ended up being my best trip ever in my life so far. Why was the trip the one I can never forget?

Firstly, the trip, I have been talking about was a trip to Sabah with my family. I went with my parents and my siblings. One reason why I loved this trip so much is that, on this trip before I arrived in Sabah, my family and I stopped by Kuala Lumpur (KL). It was my first time going to KL. So, I found that really interesting. I felt amazing to see the famous landmark in KL which would be the Petronas Twin Towers. The main reason we arrived at KL is because we traveled by our car from Penang to Kuala Lumpur International Airport (KLIA) where we then took the flight to Sabah.

Next, when I arrived in Sabah, my family and I were in Kota Kinabalu. It was my first time going to Kota Kinabalu. I have always wanted to go there, and my dreams finally became a reality. My stay in Kota Kinabalu was a fantastic experience. It was a good 2 weeks spent well. I went to Mount Kinabalu. My family and I also went on a river cruise on the Klias Wetlands. It was a fun experience. From Kota Kinabalu, my family and I went to Sandakan. I was happy when I went to Sandakan because we were going to visit one of my family members. I have looked forward to

visiting them because I have not seen them for a year. Also, after the get-together was over, we visited Kudat and to the Tip of Borneo together.

Our trip to Kudat was funny and entertaining. When we arrived in Kudat, we stayed in Kudat Riviera. I really loved the luxury villa we stayed in. When we were in Kudat, we went to many places. We went shopping many times. Then one day we went to Gombizau Honey Bee Farm . There,I had the best experience of my life. I learnt about honey production and the traditional Rungus bee-keeping methods. I also tasted fresh honey. My mom bought some honey-based products too. It was a really fun place to go to.

In conclusion, my trip to Sabah was the best trip of my life. I will never forget they day I went on the trip. So, this trip is indeed a trip I will never forget because I went to states I have not been to before and I also visited the Petronas Twin Towers and Mount Kinabalu. This trip was packed with a lot of fun experiences and unforgettable memories.
