Turning Trash into Cash

At Green Grove Primary School, children are thinking about (1_____) in a new way.

They are learning the three Rs of recycling (reduce, recycle and reuse) and making money for their school at the same time.

Since June last year, the school has made a lot of money — simply because mothers of the pupils (2_____) , plastic containers, paper and glass which are sold to recycling companies. “That money means our school fees stay low!” said one mother.

Fired by the enthusiasm of the Grade 5 teacher, Helen Howes, the learners (3_____) bottles and tins as garbage. It (4_____) now, and they no longer leave them to litter the sports fields and other public places.

Ms Howes says, “(5_____) , home or away, there is not a single scrap of litter left on the school grounds.” She has received calls from many other schools wanting (6_____) after learning of Green Grove Primary School’s (7_____)
