For you, a cell phone is probably just a device that you or your friends used to keep in touch with family and friends, take pictures, play games or send messages. The definition of a cell phone is more specific: It is a hand-held wireless communication device that sends and receives signal by way small special areas called cells.

In 1973, an electronic company called Motorola hired Martin Cooper to work wireless communication. Motorola and Bell Laboratories (now AT & T) were in a race to invent the first portable communication device. Martin Cooper won the race and became the inventor of the cell phone. On April 3, in 1973, Cooper made the first cell phone call to his opponent at AT & T while walking down the streets of New York City. People on the sidewalks gazed at Cooper in amazement as he walked down the street talking on his cellular phone. Cooper's phone was called a Motorola Dyna-Tac.
