

### 1-CHOOSE THE CORRECT ANSWER

1. Plants...
  - a) Are herbivores
  - b) Carry out photosynthesis
  - c) Are viviparous
2. Multicellular living things include...
  - a) Bacteria
  - b) Protozoa
  - c) Animals and plants
3. Plant cells have...
  - a) A rigid cell wall and chloroplasts
  - b) An irregular shape
  - c) An elastic wall
4. The levels of organisations are:
  - a) Cell, tissue, organ, system, organism
  - b) Cell, organ, tissue, system, organism
  - c) Cell, tissue, organ, organism, system

Sensitivity is the process by which living things \_\_\_\_\_ and respond to changes in their \_\_\_\_\_.

Animals detect information through their \_\_\_\_\_ and they respond with \_\_\_\_\_. \_\_\_\_\_ cannot move about but they detect and \_\_\_\_\_ to changes.

### 4-MATCH

1-Cells are....	...of more than one cell
2-We can only see cells...	...through a microscope
3-Multicellular living things are made up...	... of just one cell
4-Unicellular living things are made up...	...the basic units of life

##### 5- READ AND WRITE THE PART OF THE CELL

**cytoplasm - nucleus - organelles - cell membrane**

- a. Internal part which controls what happens in the cell. --> \_\_\_\_\_
- b. Liquid part between the nucleus and the membrane. --> \_\_\_\_\_
- c. Thin, permeable skin that separates the interior of the cell from the outside. --> \_\_\_\_\_
- d. They are situated in the cytoplasm. --> \_\_\_\_\_

##### 6-WRITE THE PARTS

ANIMAL CELLS

PLANT CELLS

**7-LABEL THE LEVELS OF ORGANISATIONS**

A-  
B-  
C-  
D-
