A Bear Called Paddington

Some books start a little showly..... this book starts with lots of things going on!
In just the first chapter we have met a few characters.

Let's look at the book - just Chapter 1. On the next page, write the answers!
If there is more than one 'where' please write all of them.
You only need to write the main characters who say things etc.

For the 'how' we can talk about how the characters come to meet each other.
