

The Fall Season

Read the following text and answer the questions below.

Fall is one of the four seasons, and it comes after summer. Fall is also called autumn. During fall, the weather starts to get cooler. The days become shorter, and the leaves on trees change color. They turn red, orange, yellow, and brown, then fall to the ground.

In fall, many people enjoy outdoor activities like going on hikes, picking apples, and visiting pumpkin patches. Some people celebrate a holiday called Thanksgiving, where they eat a big meal with their family and friends to be thankful for what they have.

Animals also get ready for winter during fall. Some animals, like squirrels, collect food to store for the cold months, while others, like bears, start getting ready to hibernate.

Fall is a beautiful time of year,
full of color and fun activities!

1-What is another name for fall?

WINTER SPRING AUTUMN SUMMER

2- What happens to the weather during fall?

the weather starts to get warmer
