

A. Read the following text and answer the questions.

In my town, there are many interesting places to visit. If you want to buy fresh bread and delicious pastries, you can visit the bakery, which is located next to the coffee shop. The smell of coffee and baked goods right there is amazing!

If you need to withdraw money or open an account, the bank is right in front of the bus station. It's a convenient spot for people who use public transport and need to handle some quick banking.

For people interested in getting new clothes, there's a trendy clothing store near the clinic. The clinic is quite helpful when you feel unwell, but it's also comforting to know you can pick up a stylish outfit nearby.

Behind the flower shop, there's a small but cozy convenience store. When you need to grab a quick snack or some household items, this store is very handy. Plus, it's always nice to have a beautiful bouquet of flowers in your home, so the flower shop is perfect for that.

If you find yourself running out of toiletries or need some prescription medication, the drugstore is right next to the appliance store. Whether you're looking to buy a new gadget for your kitchen or just some toothpaste, this area will have what you need.

With so many places to explore, my town is a bustling community filled with all the essentials and more, making life convenient and enjoyable for everyone who lives here.

A. Read the questions and answers regarding the text.
