**Feeling down?  
Stressed? Or  
unwell? Before  
you visit the  
doctor, why  
don't you get a  
pet? Here are a  
few reasons why  
a pet can change  
your life!**

1 You've had a bad day. You go home and your pet runs to welcome you. Doesn't that cheer you up? It just shows how a pet can help you calm down. And that's not true only for cats and dogs. You can relax even if you watch fish in an aquarium.

2 A pet can become a child's best friend and a great teacher at the same time. Children who look after pets learn to be more responsible and they also become more sociable.

3 Nowadays, people work long hours and they're too tired to take up a sport. However, if you've got a dog, all you need to do is take it for a walk. It's great exercise and don't worry, your dog will always want to go out.

4 Sometimes people are unhappy and lonely because someone they know has moved away or they've lost a loved one. Lots of people, especially old people, find that they feel better if they've got a pet.

But remember! If you decide to get a pet, you should find out everything you can about the animal before you get it. Choose carefully and don't forget, a pet is for life!

B. Read again and write T for True or F for False.

1. Only cats and dogs can help someone relax.
2. Children who've got a pet make friends more easily.
3. Dog owners should do more exercise than just taking their dog for a walk.
4. Pets can help when you've lost a loved one.
