### READING

B. Read and write True or False. Here's an example:

**Grace:** Thank you for coming to our show, Adventures in space.

**John:** Hi, thanks for having me.

**Grace:** So, what happened while you were exploring in space?

**John:** Well, at first, everything was fine. I landed on a planet that looked friendly. I turned off the engine and got out of the spaceship. I was collecting samples when I touched a rock. The rock moved.

**Grace:** Really? What happened after that?

**John:** Not long after that, I was walking back to the spaceship when I heard a very strange noise.

**Grace:** Where was it coming from?

**John:** At first, I didn't know. Then, I saw lots of rockets landing on the planet. I think they were aliens. It was scary. I decided it was time to leave, so, I started to run. I was running back to my spaceship when I fell and hurt my knee. When I got to my spaceship, the entrance didn't open. I quickly punched in my code, and it opened. While I was doing that, I could hear the aliens behind me!

**Grace:** That's very scary.

**John:** It was. I looked out of my spaceship as I was leaving. The alien rockets followed me!

**Grace:** Oh! Did you get back OK?

**John:** Yes, I did. While I was watching the rockets on the spaceship's monitors, they disappeared.

**Grace:** Wow!
