

Analyzing Political Ads

analyze = break a thing into parts to understand it better

campaign = a strategy or plan for winning

Are you fighting a war? Is your team trying to qualify for the SuperBowl or World Cup? Do you want lots of people to buy something you made? Would you like to be elected President?

The best way to win at anything is to have a good **campaign plan**. You don't sit and wait for something to happen. You decide what you can do to win- and then you do it!
