

How many things are in my house?

I live in a rural area. There are thirty-two hens and there is a rooster. There are three geese and there are many fish. There are not many cows, there are only five cows, and there's a big bull. There is a tractor for working the land. There is a parrot that always repeats what I say. There is a lot of water in my pool. There are not ducks. There are many cats inside my house. There is an orange tree with many oranges, but I don't like them.

Select the correct answer according to the text
