**Exercise 2 (Maze practice) -complete the text with the correct word.**

In today's world, technology has made it easier to learn about different cultures. Many people enjoy

**1(exploring /explore / to explore)** cultural traditions online. For example, if someone wants

**2(learning / learn / to learn)** about festivals in other countries, they can find videos and articles easily.

Some people still prefer **3( to travel / traveling / travel)** to experience customs firsthand. Traveling helps people understand and appreciate cultural differences, and many find it fascinating **4(meeting/ meet/ to meet)** people from diverse backgrounds.

However, even if technology **5( makes /make/ making)** cultural information more accessible, it can't replace the value of personal experience. Those who plan **6(to visit/ visiting/ visit)** new countries often prepare by learning a few key phrases in the local language or researching customs they should follow.

People who intend **7(living/ to live / live)** abroad usually study the culture more deeply. They may even begin **8( adapting/ adapt/ to adapt)** to new customs before they arrive, making the transition smoother.
