

NOTE VALUES / RHYTHMS 2

Knowing the length of notes is very important in music; after all, playing the correct rhythm is more important than the correct notes.

Look over this table to refresh your memory about note lengths.

	4 beats			1 beat	
	2 beats			$\frac{1}{2}$ beat each	
	1 beat			$\frac{1}{2}$ beat	

Using this information write the note values underneath each of the notes printed below, and then answer the sum. (Number 1 has been done for you as an example.)
