General Knowledge- Sources of Water

Guess the source of water from the given clues, and search it in the puzzle

- A big area of salty water, smaller than an ocean, with land around it. _____
- A small, still water area, often found in gardens or parks. _____
- A hole in the ground where people get water for drinking or watering plants. _____
- A flowing water path that moves from mountains to lakes, seas, or oceans. _____
- Water drops that fall from clouds and fill rivers, lakes, and the ground. _____
- A small flow of water that moves through fields or forests. _____
- A huge block of ice in cold places that melts slowly and makes rivers. _____
- A large freshwater area surrounded by land with plants and animals around it. _____
- The biggest salty water body covering most of the Earth. _____
- Water that naturally comes out of the ground, often in hilly areas. _____
