Extension Activity:

DOK Level 1: Recall and Reproduction

Activity 1: Match the Network to the Description

Instructions: Match each network type with its correct description. Draw a line from the network type to the description.

Network Type	Description
	1. A network that connects devices in a small area, like a classroom or home.
	2. A network that connects computers over a very large area, like across cities or countries.
	3. A network that connects devices within a city or large town.
	4. A small network that connects personal devices, like a phone and laptop.
