

Last summer, I went on holiday with my wife to the Canary Islands and it was a(n) **1** experience. There are seven Canary Islands, but we visited two of them, Tenerife and Gran Canaria. They are a top tourist **2** for people from all over the world, because of their **3** breathtaking beaches and the beautiful countryside. The travel **4** organised a very interesting trip for us and our tour guide was very helpful. In Tenerife, an **5** activity we discovered was birdwatching, as well as whale watching. In Gran Canaria, we visited a few **6** villages. We also enjoyed long walks on their **7** beaches. I recommend the Canary Islands to anyone who wants to have a good time. The **8** is that I have never visited such a unique place in my life.
