

Identifica las razones trigonométricas

$$\text{Sen}(\theta) = \frac{\square}{\square}$$

$$\text{Csc}(\theta) = \frac{\square}{\square}$$

$$\text{Cos}(\theta) = \frac{\square}{\square}$$

$$\text{Sec}(\theta) = \frac{\square}{\square}$$

$$\text{Tan}(\theta) = \frac{\square}{\square}$$

$$\text{Cot}(\theta) = \frac{\square}{\square}$$

Basados en el triángulo rectángulo, determinar las razones trigonométricas y completar su división.

$$\text{Sen}(\theta) = \frac{\square}{\square} = \square$$

$$\text{Csc}(\theta) = \frac{\square}{\square} = \square$$

$$\text{Cos}(\theta) = \frac{\square}{\square} = \square$$

$$\text{Sec}(\theta) = \frac{\square}{\square} = \square$$

$$\text{Tan}(\theta) = \frac{\square}{\square} = \square$$

$$\text{Cot}(\theta) = \frac{\square}{\square} = \square$$
