HW

- Write a division for each situation. Choose if you must divide the number by one or by itself.

Carlota has 12 lempiras. She wants to buy candies that cost 1 lempira each. How many candies can Carlota buy?

$$12 \div \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

She can buy \_\_\_\_\_ candies.

Carlota wants to share the candies she bought with 12 friends. How many candies will each friend get?

$$\boxed{\phantom{00}} \div \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

Each friend will get \_\_\_\_ candy.
