Hi! I'm **Pepe**. I live in the city of Valencia, Spain. I'm eleven years old. I've got a small family and a small house.

My sister is six and she is very creative and intelligent. But to be honest, I am not too creative. Her name is Martina and she loves making things.

I prefer collecting things, especially stickers. I've got a large collection and it is the most complete in my family.

I like board games, chess, *Monopoly*, scrabble and *Trivial*, but I always have problems in these games, I never win.

I'm a great painter, I love drawing and painting animals. My family admires my awesome pictures of animals in my bedroom.

Hi! My name is **Lola** and I'm from Favara, but I live in Cullera with my family in a big house.

I've got two siblings, one brother, Felipe, and one sister, Sara. My brother Felipe is seven, I'm 10, and my sister Sara is 15 years old. She is the oldest.

I like reading books and I love writing stories, and they are very original. I've got a fantastic imagination. I've got a good collection of books, but it isn't very big. I want to buy more books, but I haven't got money.

I don't like art, it is too difficult for me. I hate colouring. But I love cycling in the mountains and searching in the internet. I'm a great web detective.
