How can we contribute to a cleaner community? It's not difficult! Firstly, we should never litter on the streets or in natural areas. People **29)** pick up litter make their communities nicer for everyone, too. We can also have recycling centres nearby to encourage people to recycle paper, bottles and cans regularly.

Another great way to keep our communities clean is to cycle or walk to get around. Cars and buses make a lot of noise and produce air pollution, so using them less means a **30)** town for everyone. We can use **31)** energy instead of fossil fuels to power our home and businesses too!

Keeping our communities clean and tidy is a responsibility we all share. So don't rely **32)** others to do the work for you. If everyone makes a small effort, together we can make a big difference.
